

Delo® Silver Multigrade

Multifunctional Diesel & Gasoline Engine Oil

Product Data Sheet

Customer benefits

Saves on fleet maintenance costs

Metallic detergent and ashless dispersant additive system provides both high temperature deposit control in diesel engines and low temperature sludge control in gasoline engines. High oxidation stability protects against the formation of gums and varnish at elevated temperatures, and resists thickening, and oil line and filter plugging.

Longer engine life

Proven metallo-organic anti-wear additive system protects against wear of critically loaded components under all operating conditions. Multigrade viscosity provides additional protection against wear at start-up and under high temperature operating conditions.

Maintains high power and performance

Metallic detergent and ashless dispersant additive system maintains high power and performance by providing very good upper-ring-belt deposit control, particularly under the high temperatures encountered in turbocharged diesel engines.

Low inventory costs

Mid-ash, medium dispersancy formulation provides very good overall performance in mixed fleets of different engine designs, allowing fewer oils to be stored and reducing the chance of problems arising through product misapplication.

Applications

- Mixed fleets of diesel engines (high-speed, four-stroke, turbocharged or naturally aspirated).
- Mixed fleets of both gasoline and diesel engines.
- Gasoline engines (four-stroke).
- Commercial road transport.
- Off-highway vehicles.
- Agricultural tractors.
- High speed diesel engines in marine service (e.g., fishing, river transport, etc.).
- Generator sets.
- Mobile hydraulic systems (where oil type and viscosity are appropriate).

Product features:

- **Delo® Silver Multigrade** is a high performance, multigrade, heavy-duty diesel engine oil.
- **Delo® Silver Multigrade** has been specially designed to lubricate diesel and gasoline engines requiring API CF-4, CF or SG performance lubricants.
